

Global Issue Network (GIN): Leading Environmental Change

As the ambassador of a club dedicated to raising environmental awareness, I have led initiatives in my society that combine the power of social media with impactful on-ground activities. Through this platform, we have organized plastic drives and provided environmental education to our community, striving to create sustainable habits and inspire eco-friendly practices.

Our efforts not only aimed to reduce plastic waste but also encouraged others to adopt environmentally conscious behaviors. Along the way, I developed key leadership and teamwork skills, coordinating events and campaigns that resonated with a wide audience.

This journey has been about more than just spreading awareness—it's been about actively contributing to meaningful change and empowering others to take action for a healthier planet.
